

Mohamed Khaled AbdelSattar

Frontend Developer | React 19 Specialist

Phone: 01024891448

Email: momokhaled937@gmail.com

Linkedin: [MohamedbnKhaled/linkedin](https://www.linkedin.com/in/MohamedbnKhaled/)

GitHub: <https://github.com/Mohamedbnkhaled123>

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React 19 (Hooks, React Router), Next.js 15 (App Router), Tailwind CSS, Bootstrap

State Management: Zustand, React Context API

Backend & Tools: Firebase (Cloud Firestore, Auth, onSnapshot Real-time listeners), Git, GitHub

Specialized Skills: Prompt Engineering, Optimistic UI, Generic Service Layer Design, Performance Optimization, SEO Optimization

Professional Projects

E-commerce Admin System (Real-time Dashboard)

[visit the website](#)

- Developed a high-performance dashboard using React 19 and Zustand for seamless statemanagement.
- Implemented Optimistic UI with rollback logic to enhance user experience by providing instantfeedback.
- Engineered a Generic Service Layer to standardize API calls and improve code maintainability.
- Utilized Firebase for real-time data synchronization and secure authentication.

Paris Clinic System (Patient Booking Platform)

- Built a real-time booking system using Cloud Firestore and React.
- Implemented onSnapshot listeners to ensure zero conflicts during simultaneous patient bookings.
- Designed a responsive UI using Tailwind CSS, focusing on accessibility and ease of use for medicalstaff.

E-commerce Web Application | React, Next.js 15, TypeScript, Tailwind CSS [visit the website](#)

- Built a scalable Frontend application using React and Next.js 15 (App Router) with TypeScript for stricttype safety and clean architecture.
- Engineered a real-time shopping cart system using React Context API to ensure efficient statemanagement and smooth user flow.
- Optimized performance using React.memo to prevent unnecessary re-renders and next/dynamic forcode splitting and lazy loading.
- Developed a dynamic product catalog with advanced filtering and high-speed data fetching.
- Enhanced web performance and SEO using next/image optimization and server-side renderingcapabilities.
- Designed a premium mobile-first UI using Tailwind CSS with reusable components and interactiveanimations.

Education

Student at HICMIS (Higher Institute for Computer Science & Management Information Systems)
